

# Mission Diagnostic

by Jeremy Stephens

Each core member scores themselves according to the questions below. The elder can help walk the group through identifying strengths of the microchurch and the weak spots. It's important to identify both areas of **affirmation** and **next steps** as a *community and individuals*.

**Score each core member, then average those scores for the microchurch's total.**

1. How would you say you **invite** others from our mission field to microchurch?

1 (what mission?)      2      3      4      5 (like Jesus)

2. Do you regularly **pray** for our mission field?

1 (what mission?)      2      3      4      5 (like Jesus)

3. Do you consistently participate in discussions and propose ideas **relevant** to our mission?

1 (what mission?)      2      3      4      5 (like Jesus)

4. Do you make **adjustments** to plans and programs in order to better fit our mission field's needs?

1 (what mission?)      2      3      4      5 (like Jesus)

5. Do you **empower** other members to engage in our mission?

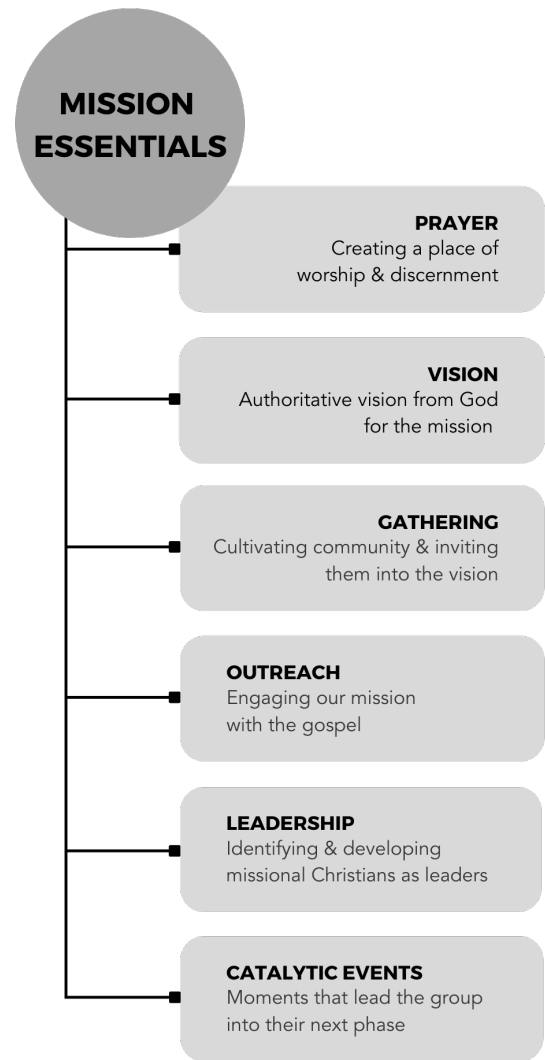

1 (what mission?)      2      3      4      5 (like Jesus)

6. Do you make **plans** for outreach with our mission field specifically in mind?

1 (what mission?)      2      3      4      5 (like Jesus)

# Microchurch Average

Invite _____
Prayer _____
Relevancy _____
Adjust _____
Empower _____
Plans _____

## Mission Essentials

Use the 6 Essentials to process where your microchurch needs to take their next steps.

- 1. Prayer:** how are we creating places of worship, prayer & the Word? Are there passages that really speak to and guide our mission specifically?
- 2. Vision:** what is the vision for the mission and how do we communicate it consistently to the community?
- 3. Gathering:** how are we gathering, forming community and investing in others in structured and unstructured times?
- 4. Outreach:** how are we moving beyond the core to engage others with the gospel?
- 5. Leadership:** how is the core members identifying/investing in potential leaders? How are we planning expansion: to grow, split and increase?
- 6. Catalytic Event:** how are we using conferences, events to move group to next phase? What resources and help does the microchurch need to launch next semester?

# Stir Missional Life

This series of questions is a guide your microchurch through assessing and developing outreach to a specific mission field.

1. If our micro church ceased to exist our mission field would be worse off because....

2. Who are we trying to reach? What are their core needs?

3. What is our repeatable prayer for our mission field?

4. What does Jesus say to their core needs? (Any main texts that help us reach our mission field?)

5. How do we need to adjust our meetings (think big or small changes...anything is open) to reach our mission field more effectively?

6. How do we invite/inspire members of our microchurch into our mission?

7. How can we gather/reach more of our mission field?
