

Disciplemaking

a microchurch that helps others encounter and obey Jesus

UNDERGROUND
www.tampaunderground.com

HOW CLEAR ARE THE VALUES/DNA YOU ARE TRYING TO PASS ON?

(check all that apply)

- I can name them, the group cannot
- I know them and the group knows them
- We know them, but don't have a system to pass them on
- We know them and we have created a way to pass them on
- We teach them but don't model them
- We teach and model the values
- We model the values don't help others practice them
- We model and equip/help others in the group practice the values
- We model our values but don't really teach them

AS YOU LOOK AT YOUR ANSWERS, **CIRCLE THE TOP 2 GAPS** YOUR MICROCHURCH MIGHT HAVE WHEN IT COMES TO PASSING ON VALUES:

SPACES OF BELONGING*

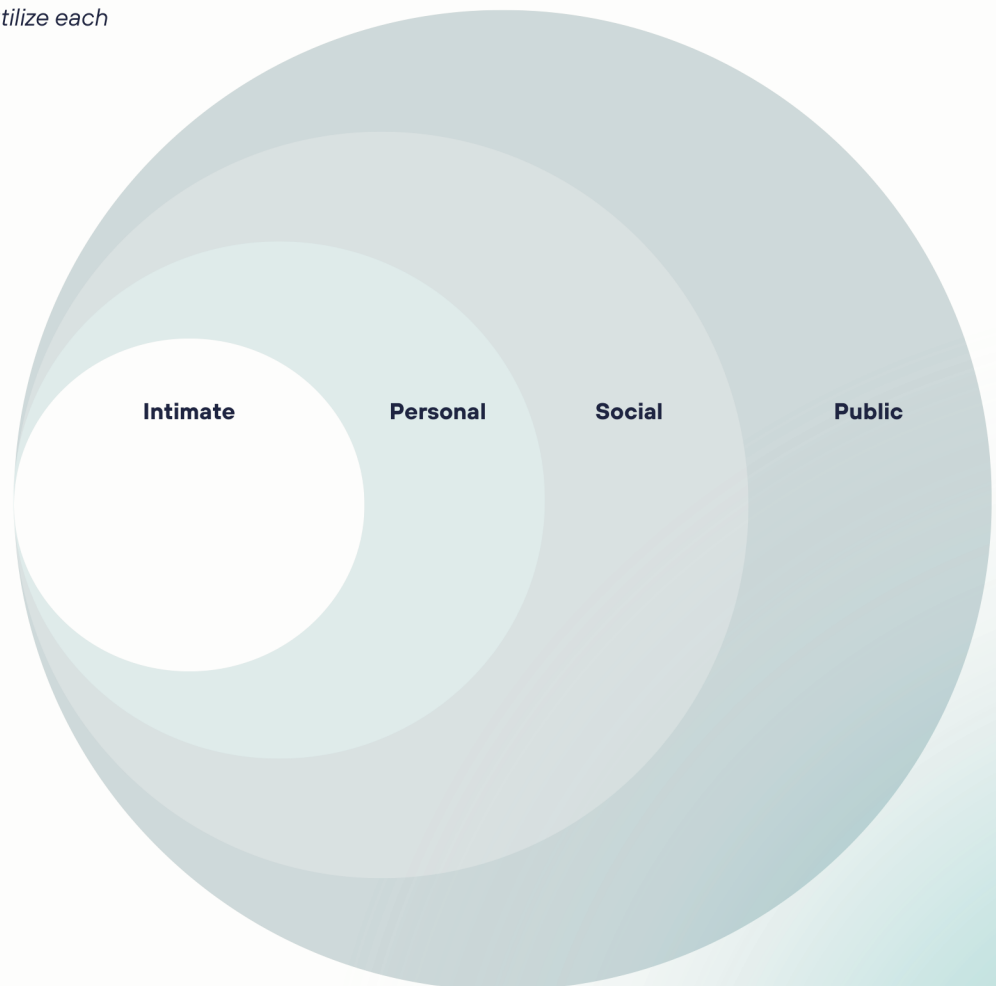

Bullet point how you currently utilize each space for discipleship

Intimate belonging (2-4) is the kind of "naked and unashamed" belonging we experience with our spouse or maybe a best friend.

Personal belonging (10-15) is the kind of belonging we experience with our families and close friends, where we have mutually disclosed information that is personal and assumes a high level of trust.

Social belonging (20-50) is the kind of belonging we experience with people whom we recognize but may not yet know very well, in which we give & receive snapshots of one another.

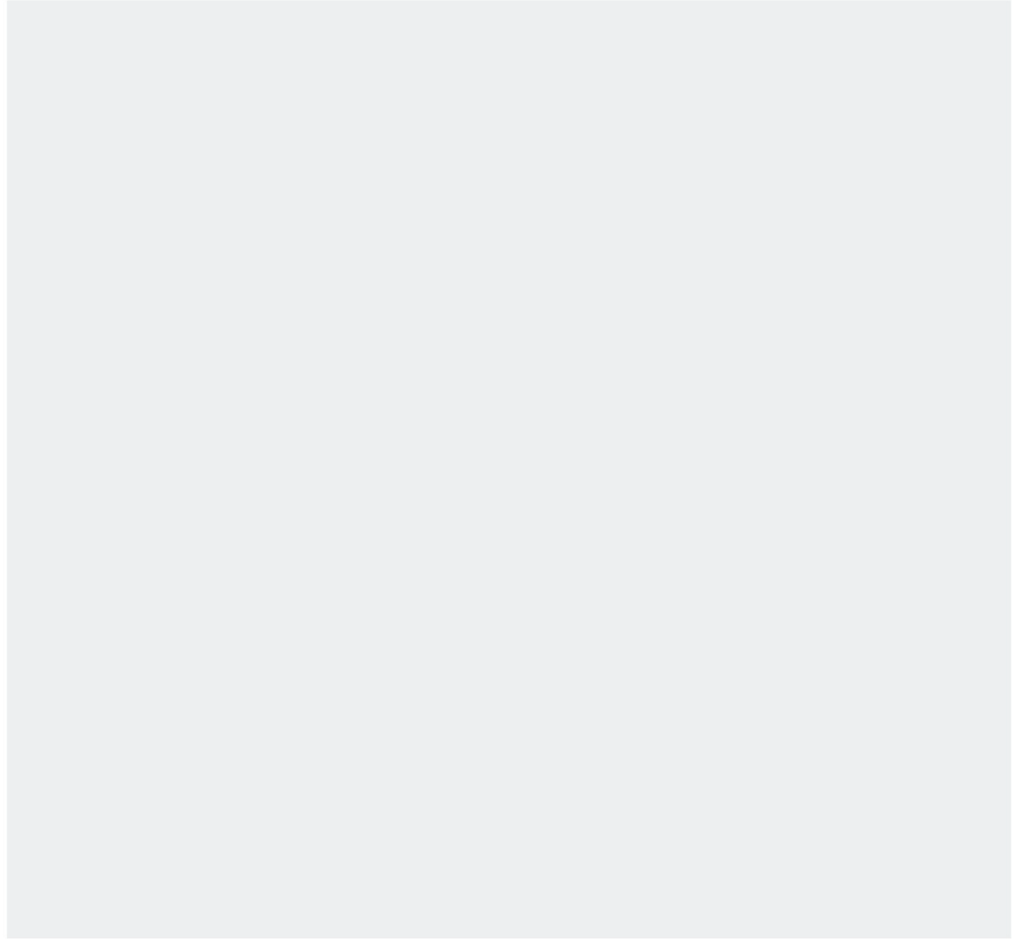

Public belonging (70+) is the kind of belonging we experience with those whom we may not know personally but with whom we are connected through some external commonality.
